

Thank you for contacting us,

We are a dedicated Tattoo Training School. We have headquarters based in South Africa and New Zealand. We will help you to get going with a solid foundation of the basics as well as an overview of the advanced techniques that you will need to become a world class tattoo artist.

Our course is designed to take an absolute beginner through all aspects of the tattoo process all the way up to doing their first tattoo on a real person. After the course all you will need to do is practice.

We have trained many students whom have many years' experience and a lot of them own tattoo studios and they have found that without having attended our course, they would not have progressed to where they are today.

You will be given an after-course training schedule to guide you through your continued development.

Course Dates - South Africa

How to Book

Contact Janet to discuss further via

WhatsApp only +27658430103 (No SMS's)

Request a booking form, we will issue an invoice if required. Please note we have to order kits from overseas and this takes 2 - 3 weeks.

Additional Information

About Skinart Tattoo Training

The entire course subject matter is approximately 50% Theory and 50% practical that includes doing 4 tattoos on practice skin and a tattoo on a real person.

People from many professions have attended our course from doctors, dentists, lawyers, nurses, bankers, circus performers, computer specialists, graphic designers, renown artists, jewellery designers, shop owners, offshore oil workers, school teachers, music teachers, oral hygienists, renown painters - Tiplo and David, comedian - Dusty Rich, Bollywood photographer- Geni , world wrestling champ - The Nightmare and many tattoo artists with over 5 years' experience.

We have trained students from all over South Africa, Swaziland, Lesotho, Angola, Mozambique, Zimbabwe, New Zealand and USA.

We had the privilege to train the first ever, Zulu male and female tattoo artist as well as the first Xhosa male and female tattoo artist and even South Africa's first Muslim Tattoo artist.

We are often asked how it is possible that I can learn to tattoo in 5 Days. Well, normally you would not be able too, in fact of the 5 main tattoo colleges in the world we are the only one that offers this unique course.

In 10 years we did 85,000 tattoos and we did not have time to spend 3 years on developing each of our 18 tattoo artists by having them making coffee and cleaning the shop during their long apprenticeship. Instead we developed a 33 step training program to get a new employee to be able to tattoo on a customer within 2 weeks. Once we had perfected our program we decided to share our course with others. So, after completing our 5 Day course, you will then be required to do an extra 5 days of homework at your own pace.

Many students are concerned about buying ongoing tattoo supplies, we import and supply all our students with equipment, but should they wish they are welcome to buy from other suppliers.

1 Day Piercing Training (Module A1)

In this course we cover the big 5 modern piercings (Belly, tongue, eyebrow, labret and nose) as well as 12 other popular piercings (tragus, nipple, PA, VCH, Madonna, snake bites, angel bites, ear, septum and others) We will teach jewellery and metals, needles and matching jewellery, anaesthetic, the standard procedures and tips and techniques

The course lasts 1 day and usually starts on the 4th day of the Tattoo Course. You will start at 9am and end at 3pm.

2 Day Piercing Training (Module A2)

In this course we cover everything in the A1 Module above, but we teach all 101 Body piercings and you do a lot more practice piercing during day 2.

5 Day Tattoo Course (Module B)

We provide you with all the skills you will need and all the equipment required for you to begin your new career.

You will use your own kit on the course but we will provide all the consumables needed on the course so you don't have to use your own needles and ink.

You are not required to be a good artist, as we provide computer software, tips and tricks to turnout professional art in 15 minutes.

The course covers all the equipment needed, machine tuning, needle setting and work station setup.

We will teach you 3 lining techniques, 2 shading techniques, machine tuning, ink mixing, black work, black and grey shading, colour work, bloodline tattoos and watercolour and more.

Additional subjects discussed - History of tattoos, quoting, tattoo photography, custom tattoo design, Shop Registration, Sterilization, cross contamination, Bloodborne pathogens, Tattoo Removal - Cover-ups - touch-ups - Re-inking, and the 3 secrets to successful tattooing.

You will receive the following Skin Art Certificates stating your training achievement:

- A Skin Art Tattoo Certificate
- A Skin Art Bloodborne Pathogens Certificate

We provide you with the following:

- The best Software for Tattoo Design.
- 100 + tattoo flash sheets on disk for your shop.
- All the fonts used by Eagle Tattoos.
- Videos and Series with some 45gb worth of tattoo videos for your interest.
- Notes on body piercing and tattoo information.
- All Tattoo Documents in digital form and supplier information

Permanent Makeup Module (Module C)

This module is integrated with the tattoo learning process and is not just a permanent makeup course.

We provide all the equipment you will need while on the course. You are not required to be artistic.

We will teach you Eyebrow tattoos, Eyeliner Tattoos, Lips and Lipliner.

Additional subjects discussed are history of permanent makeup, quoting, photography, custom design, shop registration, sterilization, cross contamination, bloodborne pathogens, permanent makeup removal, touch-ups & re-inking.

You will receive as part of the module a Skin Art Permanent Makeup Certificate.

Tattoo Removal Module (Module D)

This module is integrated with the tattoo learning process and is not just a tattoo removal course.

We provide you with 1 bottle of tattoo removal solution as well as teach you how to correctly tattoo the solution into the skin and why this is a much better tattoo removal process than anything else. We will discuss the negative effect of laser removal and why our method trumps other methods currently available.

Out of all the modules we offer, this module will make you more money in the least amount of time. As you can charge a lot and it takes you only a few minutes.

You will receive as part of the module a Skin Art Tattoo Removal Certificate.
